

# Getting to Know People, Places, and Things

People, Places, and  
Things are at the heart  
of your home

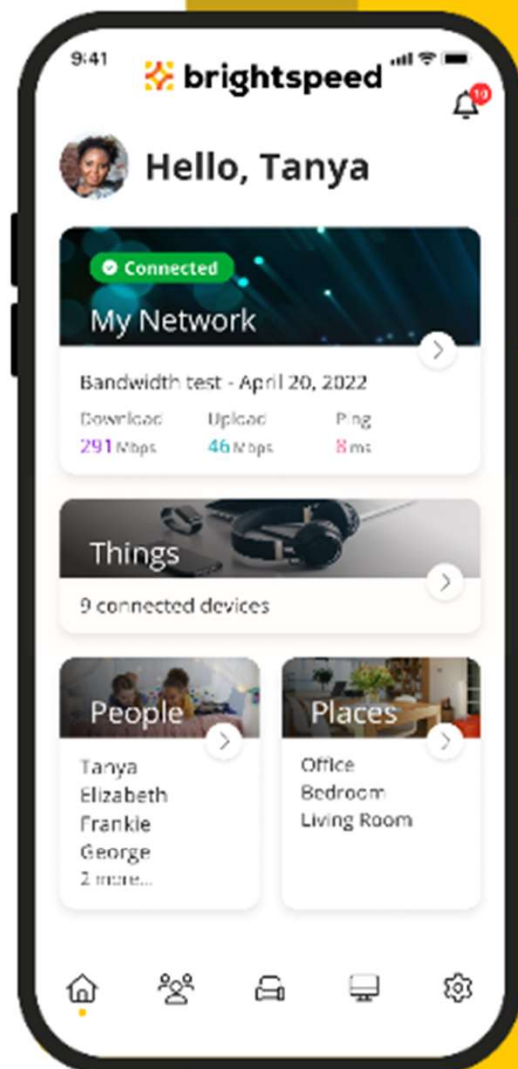

Using Brightspeed WiFi you can tailor your connected experience and manage your Wi-Fi

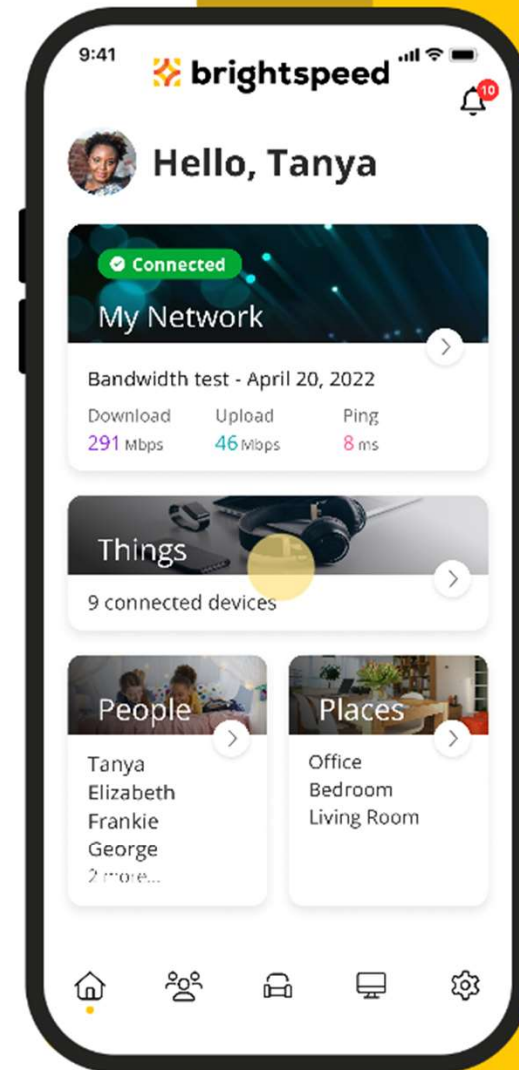

The Dashboard has dedicated buttons for:

- People
- Places
- Things

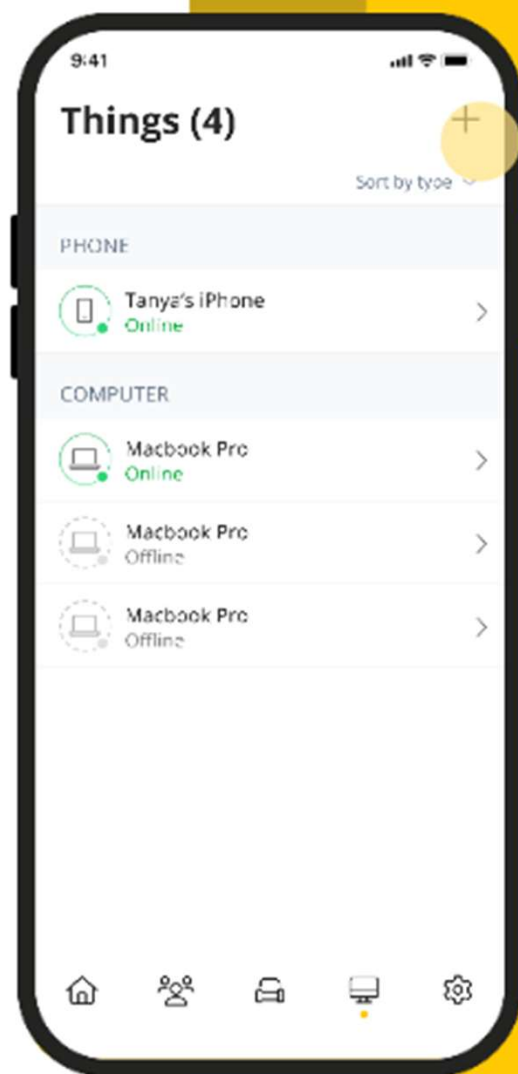

# Things

Before adding People or Places, you'll want to connect your Things to Wi-Fi

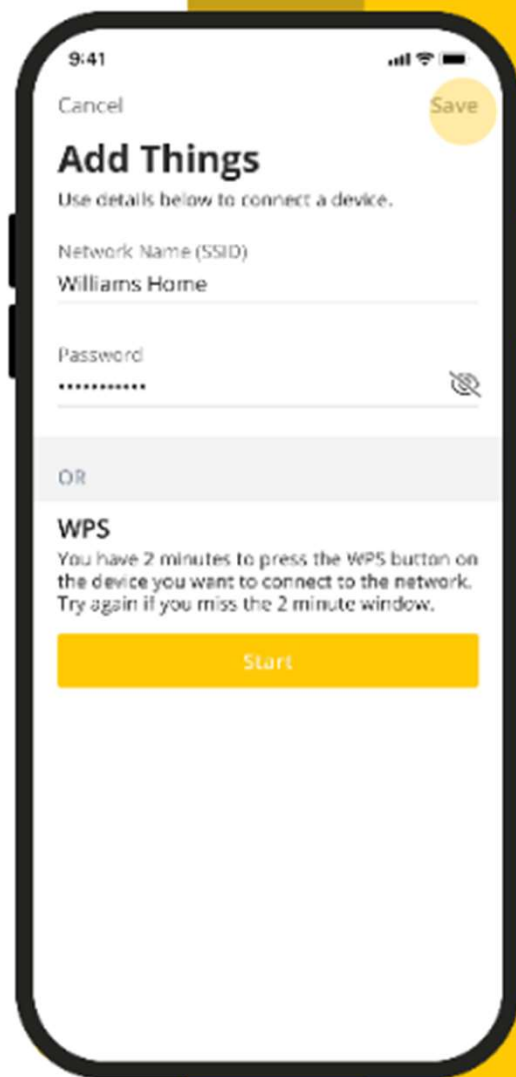

# Things

Tap the Plus button to view your Wi-Fi credentials or activate WPS

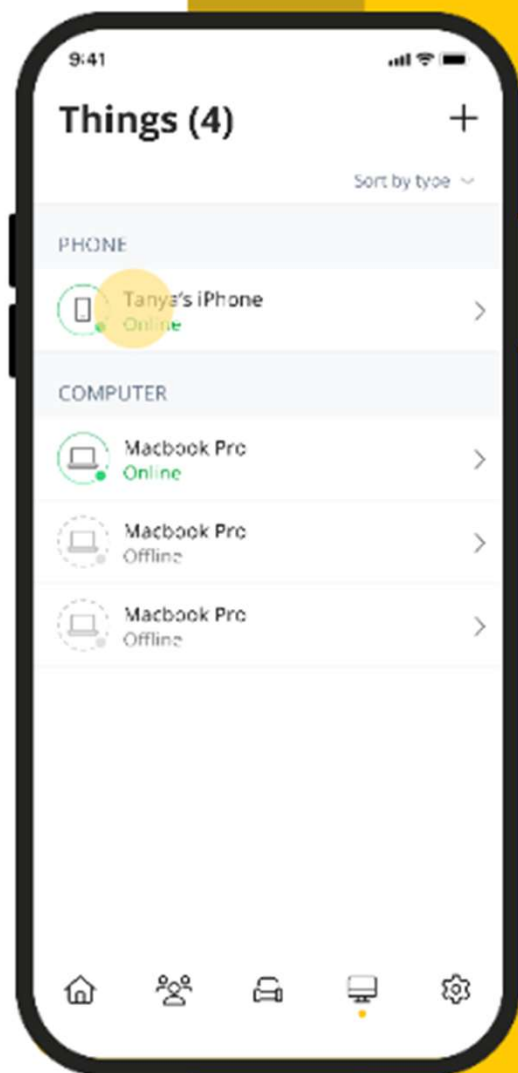

# Things

Now you can easily view  
your connected Things  
from the Dashboard

# Things

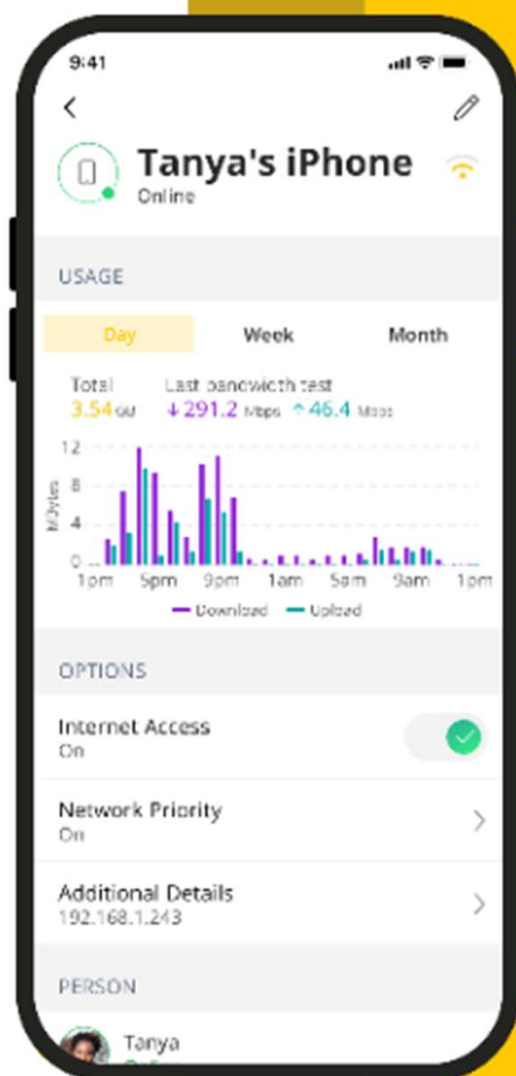

Clicking on a device will show you more info and controls

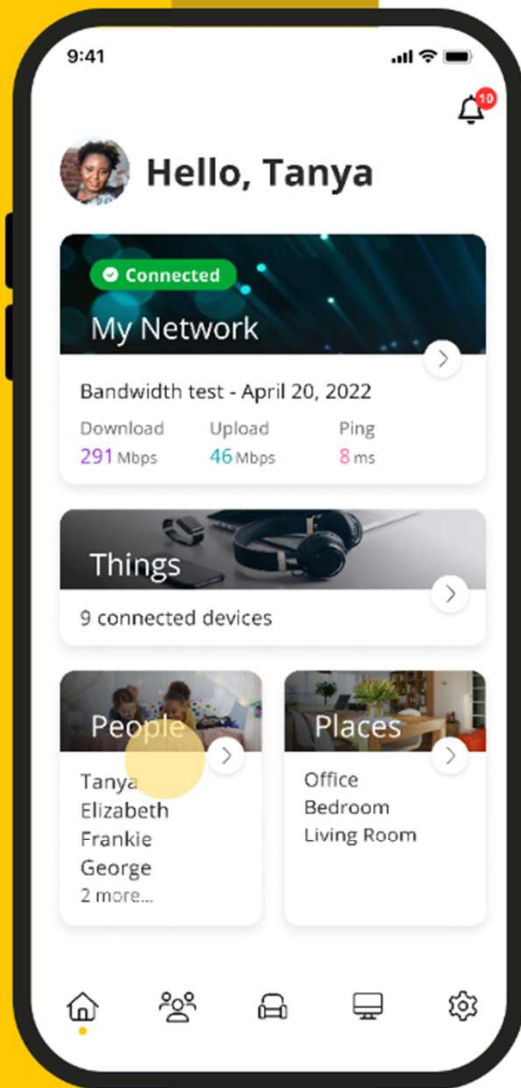

# Things

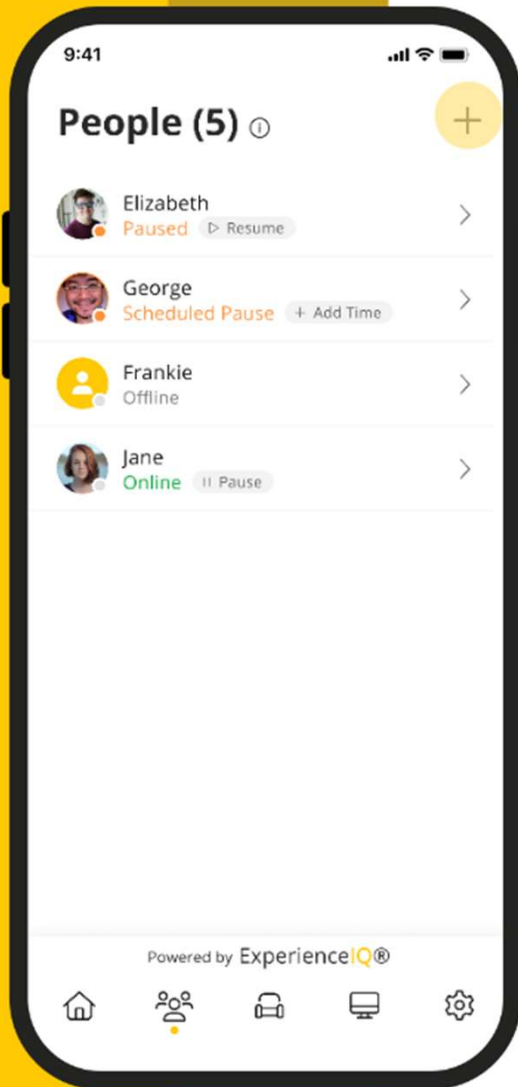

Clicking on a device will show you more info and controls

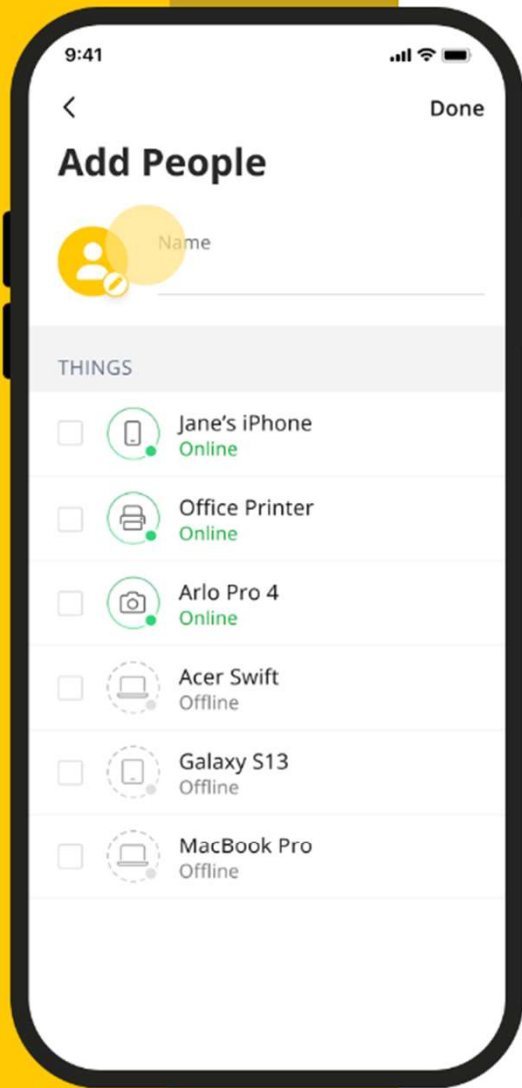

## People

People profiles allow you to tailor the experience for each person in your home

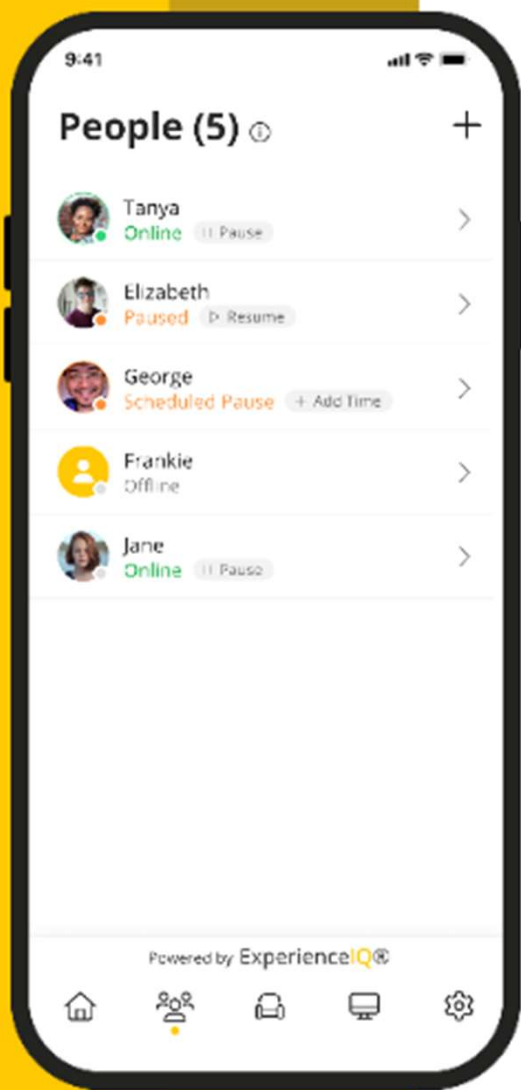

# People

Tap the Plus button to add a person

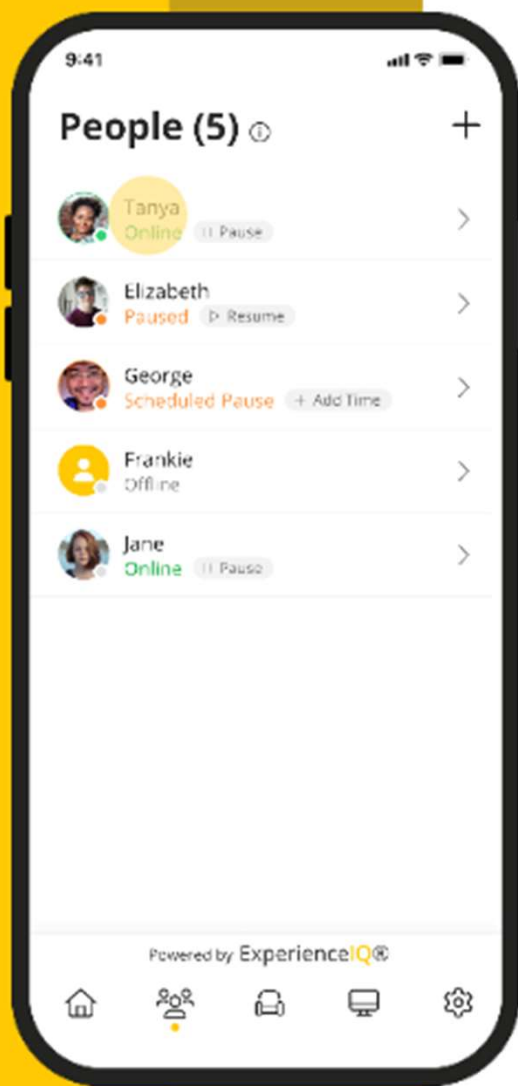

## People

You can add a profile picture and assign devices to them

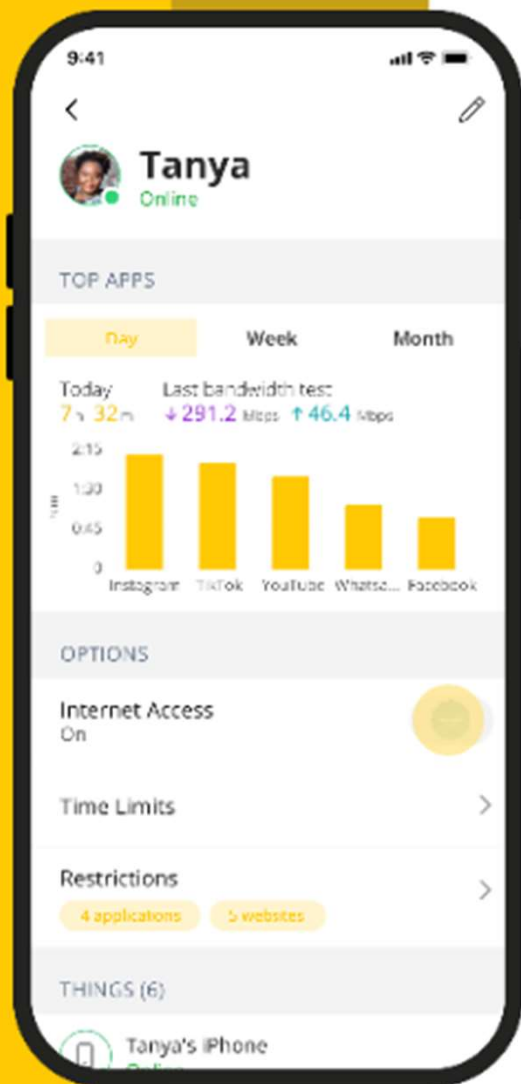

## People

Now you can view the  
People in your network

# People

Tap a person to:

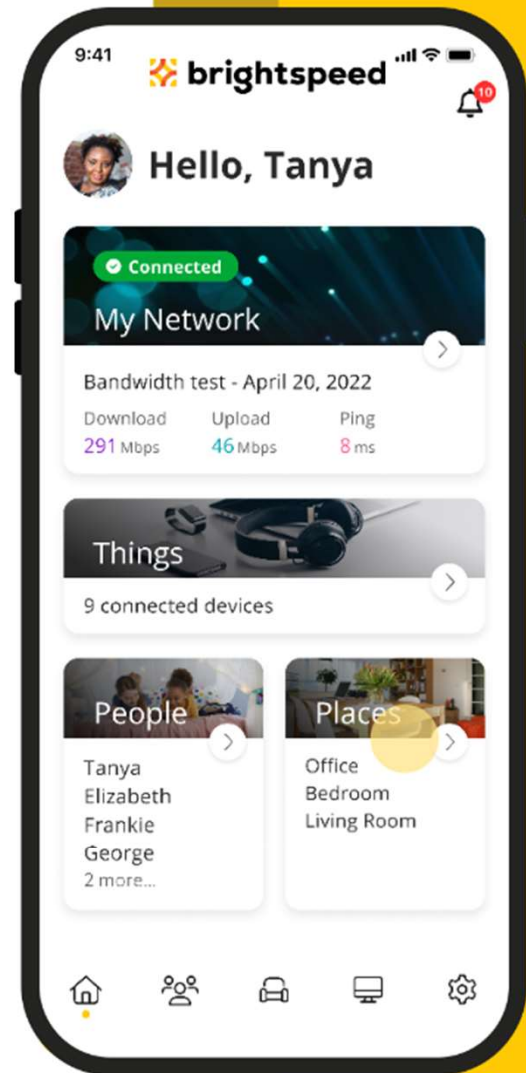

## People

Tap a person to:
